Dear Sir Abricam,

Good day!

We hope you are doing well. We would like to request your review of the final copy of our thesis manuscript before we proceed with the hardbound printing. Attached here is the PDF file of the manuscript which has already been edited and approved by the ERC. We want to ensure that all contents fully meet your standards and the required academic guidelines.

If you prefer to review the manuscript in person and also to sign the remaining required documents, we would like to know your available schedule, and we will gladly adjust to your most convenient time.

Additionally, if there are any further requirements, revisions, or need from us, please feel free to inform us so we can prepare the

Compliance Report for Capstone 2

Good Evening po Sir Brics, may we kindly ask if you are available tomorrow, Wednesday, at your convenient time to have our compliance report reviewed and signed?

Thank you sir.
